

Memorandum

To: Members of the EPA Science Advisory Board Review Panel
From: Barbara D. Beck
Date: August 8, 2005
Subject: Proposed suggestions to the charge questions for the September 13 – 14 meeting

I have prepared a redlined version of suggested changes to the questions presented in the document "Charge to EPA Science Advisory Board Arsenic Review Panel." The suggested changes were made for a number of reasons, such as the need to provide additional clarity to certain questions or to address other issues not addressed by the existing charges. I shall provide a brief overview of these changes on the conference call on August 11, 2005.
